#### EXCEL IMPLEMENTATION GUIDE

- 1. COPY THE DATA ABOVE INTO EXCEL:
  - Column A: Years (2007-2023)
  - Column B: Population estimates
- 2. CAGR FORMULA FOR COUNTRY MATCHING:

```
Place this in your CAGR column:
=IF(OR(ISERROR(VLOOKUP(Y3,'2023'!$Y$3:$Z$141,2,FALSE)),
       ISERROR(VLOOKUP(Y3,'2007'!$A$4:$U$153,21,FALSE))),
   "Data Missing",
   POWER(VLOOKUP(Y3, '2023'!$Y$3:$Z$141,2,FALSE)/
        VLOOKUP(Y3,'2007'!$A$4:$U$153,21,FALSE), 1/16) - 1)
3. ALTERNATIVE CAGR FORMULA (if you have helper columns):
=IF(OR(Z3="", [2007 Population Column]=""), "No Data",
   POWER(Z3/[2007_Population_Column], 1/16) - 1)
4. FORMAT THE CAGR COLUMN:
  - Select CAGR column
  - Format as Percentage with 2 decimal places

2022	5769385

\_\_\_\_\_

#### VERIFICATION - SINGAPORE CAGR CALCULATION

\_\_\_\_\_\_

Singapore 2007 Population: 4,588,599 Singapore 2023 Population: 5,917,648 Singapore CAGR (2007-2023): 1.60%

#### STEP-BY-STEP EXCEL IMPLEMENTATION

\_\_\_\_\_

STEP 1: Create Singapore Complete Dataset

- 1. Open a new Excel sheet called 'Singapore\_Complete'
- 2. Copy the Year and Population data above into columns  ${\tt A}$  and  ${\tt B}$
- 3. This gives you ALL years from 2007-2023 with no gaps

### STEP 2: Add CAGR Column to Your Main Sheet

- 1. Go to your main sheet with country analysis
- 2. Add a new column header: "CAGR (2007-2023)"
- 3. In the first data row, paste this formula:

=IF(OR(ISERROR(VLOOKUP(Y3,'2023'!\$Y\$3:\$Z\$141,2,FALSE)),ISERROR(VLOOKUP(Y3,'2007'!\$A\$4:\$U\$153,21,FALSE))),"No Data",POWER(VLOOKUP(Y3,'2023'!\$Y\$3:\$Z\$141,2,FALSE)/VLOOKUP(Y3,'2007'!\$A\$4:\$U\$153,21,FALSE),1/16)-1)

### STEP 3: Copy Formula Down

- 1. Copy the CAGR formula down to all rows
- 2. Format the column as Percentage with 2 decimal places

## STEP 4: Verify with Singapore

- 1. Find Singapore in your list
- 2. The CAGR should show approximately 1.64%
- 3. If it matches, your formula is working correctly!

## STEP 5: Sort and Analyze

- 1. Sort by CAGR column to see fastest/slowest growing countries
- 2. Use conditional formatting to highlight high/low growth rates

## Formula Breakdown:

- VLOOKUP(Y3,'2023'!\$Y\$3:\$Z\$141,2,FALSE) = Gets 2023 population
- VLOOKUP(Y3,'2007'!\$A\$4:\$U\$153,21,FALSE) = Gets 2007 population
- POWER(2023\_pop/2007\_pop, 1/16) 1 = Calculates CAGR

```
- IF statements handle missing data gracefully
